Isha Chury

Interaction Designer

508-736-9135 | ishachury.com | San Jose, CA | linkedin.com/in/Isha-chury | github.com/ishachury20

PROFESSIONAL OVERVIEW

Detail-oriented Interaction Designer with 3+ years of experience designing intuitive, human-centered digital experiences across web and mobile platforms. Proficient in wireframing, high-fidelity prototyping in Figma, and information architecture. Skilled at integrating modern AI tools—including Claude, Lovable, and Figma Make—into design workflows to accelerate rapid prototyping, refine interaction models, and transform user research into seamless interactive solutions.

WORK EXPERIENCE

Product Designer (Graduate Capstone) | Microsoft Research, Santa Clara APR 2026 – PRESENT

- Leading interaction design and research for an AI-powered healthcare tool aimed at bridging communication gaps between patients and doctors, empowering proactive patient involvement
- Conducted and analyzed **11** semi-structured patient interviews, synthesizing key communication barriers into 5 actionable design requirements and core user flows that shape the product's direction
- Iterating on low- to high-fidelity interface prototypes in Figma across **3+** core user flows to simplify complex medical interactions and support clear, patient-driven communication with clinicians
- Designing multi-phase usability testing protocols to evaluate patient trust, comprehension, and accessibility

Principal Interface Designer | Living Stones Foundation, San Jose JUN 2025 – NOV 2025

- Led end-to-end design of a SaaS platform, translating early-stage concepts into a high-fidelity MVP across 3 platforms (web, iOS, Android) within a **4**-month timeline
- Created **15+** branding and marketing assets to support early-stage lead generation and outreach, presenting design decisions to leadership and incorporating feedback to refine strategy and clarity of value proposition
- Architected a scalable design system and component library, standardizing **40+** assets to ensure professional quality, visual coherence, and accelerating developer handoff by **30%**
- Partnered with **4** cross-functional teams to align product, user, and business goals, supporting business growth and accelerating go-to-market readiness for the platform's launch

User Experience Designer | Tech4Good Lab (UCSC), Santa Cruz AUG 2023 – JUL 2025

- Redesigned 8 website pages and produced web content to clearly communicate platform value to partners and participants, making key information easier to find and understand
- Conducted user research with **15+** participants to inform product, content, and marketing strategy, producing market analysis and written deliverables that clearly communicated findings and impact
- Synthesized research insights into **6** presentations and reports for stakeholders to guide outreach and decision-making
- Improved user satisfaction (**+35** NPS) by translating findings into actionable recommendations for communications and enrollment

EDUCATION

Master of Science in Human-Computer Interaction | University of California, Santa Cruz SEP 2025 – DEC 2026
Bachelor of Science in Computer Science: Game Design | University of California, Santa Cruz SEP 2021 – MAR 2025

AWARDS

2026 ACM DIS Pictorial Publication | Conversation Card Game for Male Infertility Dialogue JUN 2026
Real World User Empathy Award | Google Designathon OCT 2025

SKILLS

Wireframing & Rapid prototyping
AI-assisted prototyping
Information architecture & Design
User Interviews & Thematic analysis
Design workflows
Interactive systems design
